- 3 Facial recognition**
Login ability with iPhone X
- 4 Real-time transaction history**
For loans, share drafts and savings all in one location
- 5 More transfer options**
Across account transfers, scheduled transfers, check-withdrawal, along with the ability to view pending ACH items that are scheduled to post in the future
- 6 Peer-to-peer money transfers**
Send or receive money from others
- 7 E-statements, bill pay, secure checking, member alerts, tax information**
- 8 Online loan applications**
- 9 Simpler logon process**
Use the same login and password for CU Mobile and CU Online

DOWNLOAD NOW

For iOS

For Android

Download is easy

This app is an entirely new platform that replaces the previous version. In order to use this new, updated version, you must physically download the new app via the links above, or by searching for 'Southern Security' within the Apple or Google Play stores.

Q: Will your old mobile login credentials continue to work?

A: YES. If you are currently enrolled in both CUOnline and CUMobile, your existing password should work. If, however, you created a unique username in CUOnline (home banking), you'll now also use that username to log in to CUMobile.

Problems? If you have any problems, call our Member Services Department at 1-800-633-4128 and select option 4.

*The old version of CUMobile will no longer be operational starting January 15, 2018.
